

TARMIKA BRIDGE

SEAMLESS COMMERCIAL QUOTING FOR THE INDEPENDENT AGENT

Streamline the commercial lines quoting process. Work better, save time, and increase efficiencies using this single-entry tool.

BENEFITS

Quote Easily with Your Appointed Carriers

The Bridge makes quoting with multiple carriers within a single submission simple. New markets who partner with IVANS Distribution Platform will be available within Tarmika Bridge.

Waste Less Time and Write More Business

Eliminate duplicate entry and spend more time focused on expanding agency operations.

“Tarmika has absolutely changed the game for our agency. By allowing us to quote and bind in under 5 minutes, it puts us miles ahead of our competition.”

— Bradley Flowers, Founder, Portal Insurance

TARMIKA BRIDGE

FEATURES

» **Simplify Commercial Submissions**

Submit to several markets at once, with some guidance. Dynamic Carrier Selection uses the selected business classification to show which markets are available for submission automatically.

» **Quote + Bind**

Bindable, comparative rates from appointed insurers are displayed following a quote submission allowing you to bridge data to insurer portals to finish the process.

» **Dynamic Question Sets**

A dynamic question set removes and remaps duplicate underwriting questions from the flow to allow agents to answer a single question once per submission.

» **Generate ACORD Forms**

Generate pre-filled ACORDs using quoting data captured in the Bridge without any duplicate entry.

» **Market Appetite Visibility**

A classification search powered by Ask Kodiak communicates markets' appetite into the Bridge to dynamically update in-appetite markets within the submission workflow.
